The Haliburton County Public Library Board endorses the use of the Internet as an essential source of information to complement traditional library collections. This policy establishes the provision of public network services to access the Internet and the acceptable use of these services.

Section 1: Reliability and Appropriateness of Information on the Internet

1. Resources will be made available to inform users about the reliability and appropriateness of information available on the internet.
2. The library is not responsible for the accuracy of the information available on the Internet. This is the responsibility of the producer/originator or publisher.

The library does not assume any responsibility for the configuration, security or files on personal laptops resulting from connection to the library's network. Users should be aware that information sent to or from their laptop can be captured by anyone else with a wireless device and appropriate software.
6. The library is not responsible for any damages sustained while using a personally owned device within the library's premises or while using the library's wireless network.

1. Use of the library's public network falls under the provision of the library's **Confidentiality and Protection of Privacy Policy, OP _ 01.**
2. Privacy at the workstations is not guaranteed. Staff will take reasonable measures to ensure the privacy and confidentiality of a user's use of the Internet in the library.
3. Users must respect the privacy of others. Internet workstations are situated in public areas, and content being viewed by users may be seen by other people. Users are expected to use the Internet in accordance with this environment.
4. The Board assumes no responsibility for the security and privacy of on-line transactions, as the Internet is not a secure medium and third parties may be able to obtain information about the user's activities.
